The new era  
of laundry machines.

# Drier. TT series Ecodry

"Good working conditions for laundry services: we combine highly efficient, innovative technology with contemporary design."

Wolf-Peter Graeser, CEO of Lavatec Laundry Technology GmbH

TT 733 Ecodry	63 kg
TT 735 Ecodry	95 kg
TT 745 Ecodry	132 kg
TT 746 Ecodry (single dryer)	188 kg
TT 748 Ecodry	132 kg

## Your benefits:

The new generation of driers combines safe ergonomics with sustainable processes and robust technology in its attractive contemporary design. It offers all advantages for attractive workplaces that support the high quality of your service, facilitating work climate as well as your company's image.

## Highlights:

- Variable heating (gas, electrical system, steam, hot oil)
- Intuitive programme operation
- Many ergonomically beneficial details
- Individually configurable versions and options
- Many technical options optimised to the last detail significantly reduce energy consumption
- The new design received the red dot award: product design 2012

## A new era of laundry machines

In an industry in which innovations were only introduced gradually before, the time has come for a very new generation of devices. The last years' innovations in the different technology areas are now combined and used for the benefit of laundry services. It is a good idea to look beyond the rim of the laundry machine technology teacup towards other areas of engineering. The new TT series machines are not only the most efficient state-of-the-art machines – they also meet the proverbial Lavatec standard in terms of reliability as well as low maintenance effort, finally providing laundry services with a modern design offers benefits for potential customers as well as positive effects on the work climate.

## Convincing characteristics

**More space:** Since all maintenance measures are possible from one side of the appliance, the driers can be set up as space-saving tandems for best room planning options.

**More sustainable:** Use of resource-protecting technologies and components, as well as consistent optimisation of all functions and assemblies reduces energy consumption and is good for nature and cost efficiency.

**More work safety:** Ergonomic features according to the latest insights facilitate operation and maintenance.

**More flexibility:** The versions can be combined in a practice-compliant manner. With their easy-to-adjust drying programmes, they are the quick and safe response to your customers' needs.

**More production time:** The proven technology, the Lavatec know-how and the concept of continuous further development of all assemblies ensure extraordinary availability of dryer capacity. Maintenance is quick, safe and simple with the new dryer design. We can deliver spare parts and service very quickly around the world.

**More quality:** With nearly 100 different programmes, you are able to dry any textile type gently, efficiently and with a reproducible result. You can adjust every single programme to your needs easily on your own.
